Manager.

YESTERDAY SPENT AT THE FAIR GROUNDS

Training School Faculty Arranged the Exhibit.

Most of the members of the training school spent yesterday the exhibit from that school in the educational department. The training school each year has always made an effort to present a good display of work. This year is no exception and the contribution from the institution is one that does it credit.

MROE CEMENT WORKS.

Though there has been a fall in cement prices, the work at the Mroe Cement Works has been started on east 5th street. John Hyder is having a walk constructed in front of his residence and will also have it extended from the street line to the front porch. It is also understood that this fall Mr. Hyder will have walks put in front of his property on west 7th street.

WENT TO MESA.

A number of Tempe young people went to Mesa Friday to attend the dance given there by the High School athletic association. Those who attended reported a most pleasant affair.

DOWN FROM RYE.

Pink Cole returned night before last from his cattle range near Rye. He reports conditions in his section very favorable but states that lower down on Tonto, despite the heavy rains of the summer, it is now more than unusually dry.

THE RAY POSTOFFICE.

The Ray post office requires more boxes to accommodate the increased patronage and a section has been purchased from the Tempe postmaster. Mr. Mullen had several sections of boxes left over from the old office fixtures. As they were his private property, he has since been disposing of them as opportunity offered.

A good many people who are taking advantage of the fair rates are expected here within the next day or two. Some have already arrived. Yesterday afternoon Mrs. A. F. White of Yuma arrived here to spend the week with her daughter, Mrs. O. L. Standage. She was accompanied by Mrs. Lottie

Scott's Santal-Pepsin Capsules

Tempe, Arizona.

"FRESH CANDIES."

When you want good Candies come to us.
HARMER'S DRUG STORE.

By Our Formula

We produce in Hood's Sarsaparilla a medicine that has an unparalleled record of cures of Scrofula, eczema, eruptions, catarrh, rheumatism, anemia, nervousness, that tired feeling, loss of appetite, etc. The combination and proportions of the more than twenty different remedial agents contained in Hood's Sarsaparilla are known only to ourselves, so there can be no substitute. This medicine makes healthy and strong the "Little Soldiers" in your blood—those corpuscles that fight the disease germs constantly attacking you.

DeMund of the same place. Miss Iva Esterwood who is teaching in Yuma also arrived yesterday. It was expected that a social would be in from the south about midnight last night and Miss Irma Schmidt of Douglas and Mrs. Lynn Palmer, formerly Miss Mary Mullen were expected in on it.

TODAY IS FILLED WITH GOOD THINGS

Today will be a great day for the Church of Christ. It will be a day full of good things. The Evangelist will be at his best. In the morning at eleven o'clock, he will preach upon "God's Government in Human Affairs." If any one does not think that the Gospel is a disturbing force hear this sermon. The service in the afternoon at three o'clock will be for ladies only. In the evening at seven-thirty, the Evangelist will preach another of his chart sermons, entitled, "Bridging the Chasm." This is a great subject and we want to know how this Chasm has been bridged. This is the finest chart that Evangelist Stivers uses during his meetings. For those who attend the services at the Christian Tabernacle.

Peaches for canning 3 cents per pound. Quinces, 2 cents. Berkenkamp Ranch, Tempe.

ATHLETIC OUTLOOK AT NORMAL SCHOOL

Track work has been progressing with excellent results for the past two weeks. Much good material has been unearthed in the meantime and no rest has formed on last year's performers. Those who show promise of stellar work in track this year are: George Brown, Moffat Dean, Edward Craig, A. Jungerman, O. Jungerman and R. Haby, while from last year's standbys we still have: Sheldon, John Lynch, Parley Blake, Jackson Andrew Albert and Leonard Decker. Meets will be arranged with Mesa High, Indian School and Tempe High. Our first meet will be with the Indian School, November 27, on our grounds. Little is to be said on baseball possibilities, as the season has not opened yet, but with the offer of the Republic to give a cup to the winning team in the recently formed league, there is a full assurance of a cup-winning team. Our only loss from last year's team is Morris, and we have been fully supplied in this place behind the bat. The girls have eclipsed previous enthusiasm on the basketball courts, and it is difficult to get a place on either a first or second team of any of the classes. Some good games have been

played and many hitherto unknown players have come into prominence. No guests nor moss has grown on the tennis courts. Although the weather has not been favorable for playing this most gentlemanly and scientific of games, the courts have been kept in constant use. To dispute Halbert and Thomas' right to represent the school in the coming tournament there are many this year, the most formidable of whom are Belknap and Haby, and Larson and Brown. From what has been said and by much that has been left unsaid, there is little to fear as to our outcome in athletics for the years of 1909-1910.

MUSICAL COMEDY CO. COMING NEXT WEEK

Turner will Present the Post Co. After the Fair.

There was the usual moving picture show at the Goodwin Opera House last evening and a good crowd attended. It has been announced that on account of the events of fair week, there will be no Wednesday evening show by Jack Turner's company from Phoenix. To make up for the missing night, however, Mr. Turner has arranged to give the Tempe public something better than he usually presents on two nights of the following week. On those two occasions the James Post Musical Comedy company will appear here. This company has been playing in Phoenix for several weeks and is said by those who have seen it to be better than the usual run of attractions of that sort. Fuller details of the appearance of the company here will be given later.

PRACTICING HARD.
The team selected to represent the Tempe fire department in the contests at the fair next week, is rapidly getting into shape. Daily practice is being engaged in and the team is making a splendid headway. That it will be within the money seems certain.

FOURTH OF JULY, 1876.
Flung out the banner to the breeze,
Our glorious stripes and stars;
Unfurled our flag o'er land and seas—
Our nation's stars and bars.
The emblem of our birthright wave,
O'er hill and vale and plain,
Till every patriot's heart gave
Our flag shall float again.

All hail the day that gave us birth,
An hundred years ago;
With freedom's sword of matchless worth,
Was drawn to strike the foe.
Awake! Awake! in freedom's cause,
Let loudest anthems ring;
Let every freeman shout applause—
Our nation's glories sing.

O'er every sea to every clime,
Columbia's welcome send,
To join our country's song sublime
And loud hosannas blend.
Let every freeman swell the strain,
The chorus bold prolong;
Till echoing hearts repeat again,
Our nation's festive song.

We sing today a nation's pride
Sung through an hundred years,
Yet pause to bless the brave who died
And mingle smiles with tears.
For 'neath the hill and on the plain
The fallen heroes sleep,
And while we sing our glad refrain,
Their memory still we keep.

Wide o'er this broad and favored land
Blooms freedom in its spring,
And for rich gifts on every hand,
Our grateful thanks we bring.
Yet, dearer than the wealth of earth,
To every freeman's heart,
Are freedom's rights—a freeman's birth—
Unbound by tyrant's art.

Thanks be to Him, who rules on high
For this, our festive day,
Who holds the sparrows as they fly,
And guides a nation's way.
May Freedom e'er maintain her cause,
Unstained by passion's wars,
And freedom e'er proclaim her laws
Beneath the stripes and stars.

AUTOMOBILES AND CARRIAGES
The carriage builders, recently in convention in Washington, admitted that their industry was changing into the construction of automobiles. This is an example of the supplanting of one industry by another, due to the progress of invention. Sometimes this process works hardship, but the general economic result is one of gain. It means the operation of a new industry requiring larger capital and more highly paid labor, both in making and operating engines. This must ultimately mean an increase in the number of employees at higher pay, and with every probability of stability, since it seems to be conceded that the self-propelled vehicle has come to stay. Thus this change in economic progress will prove ultimately beneficial to wage-earners, despite cases of individual advantage such as have followed the introduction of every new invention. But the final result is beneficial to the workers, both in wages and the number employed.

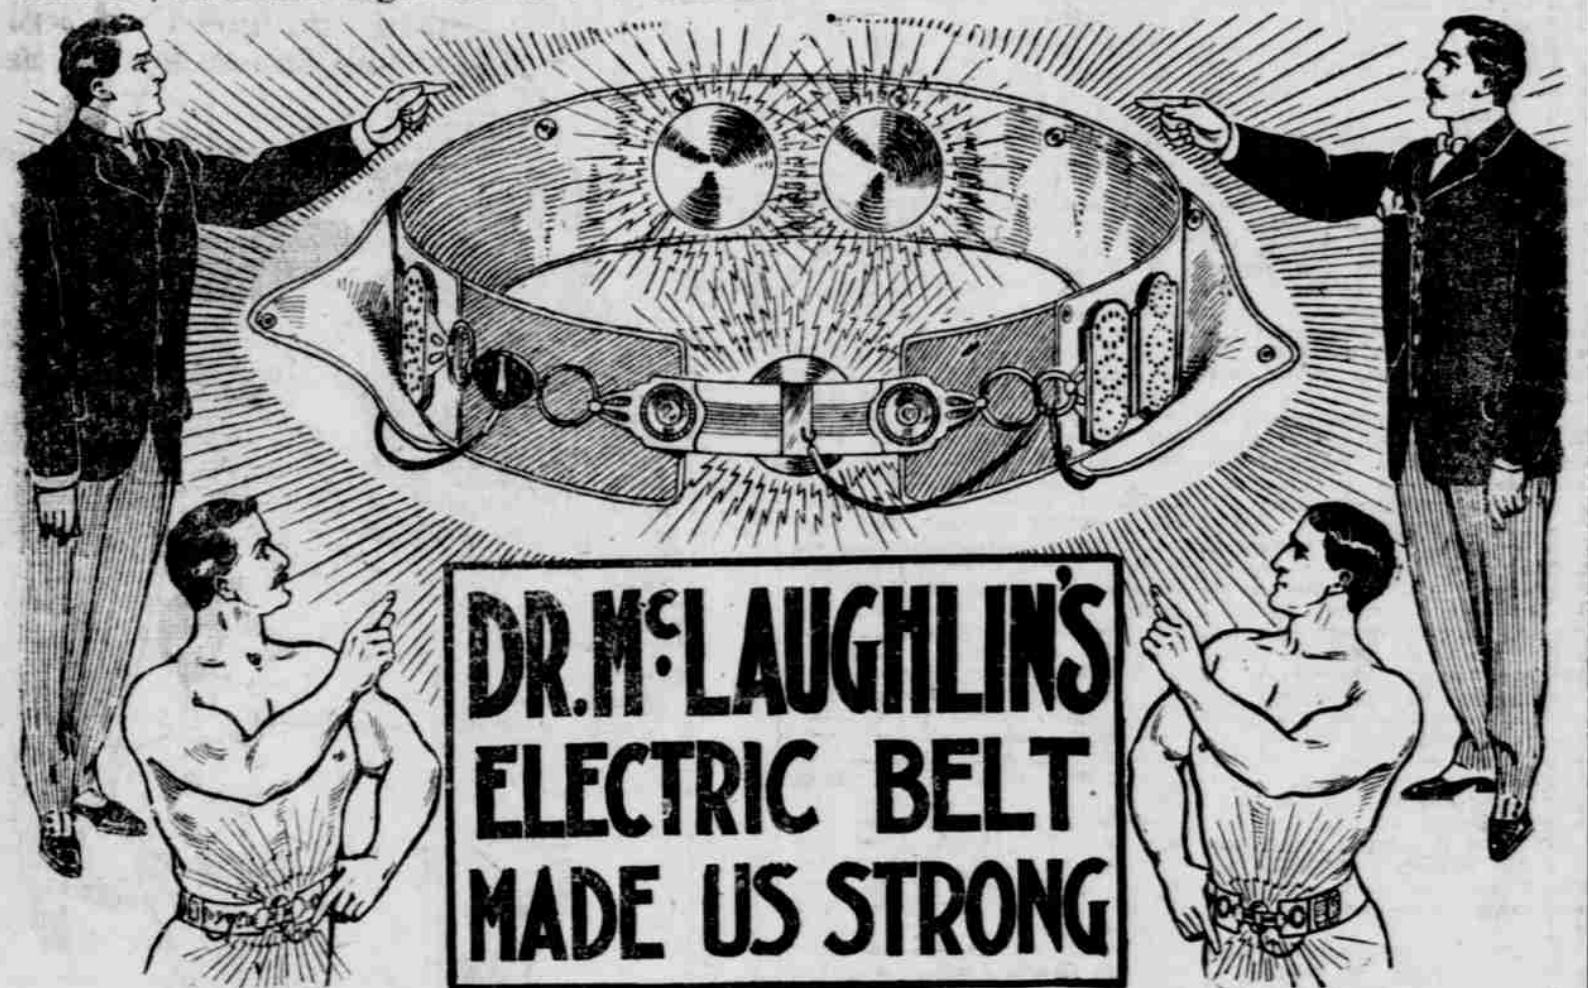

IT'S ALL OVER.
Our big sale came to a close at 10 o'clock last night. It was a success beyond our expectations, and we thank the public for its patronage.
HYDER BROS.

The Fashion Millinery Store, at 237-239 East Washington street, have on display one of the nicest lines of ready-to-wear hats to be found in Phoenix. Their stock of shapes is complete, and, with their corps of expert milliners, you are sure to receive first-class work when you leave an order for a trimmed hat with Mrs. Bodet. The prices are right. Come make our store your headquarters while visiting the Fair. You are perfectly welcome at our store, whether you buy or not.

"I Want to Cure You With My Electric Belt"

—DR. McLAUGHLIN

If you suffer from Nervous Debility, Varicocele, Waste of Manly Strength, Early Decay, Results of Youthful Errors, I can cure you with my Electric Belt—the only natural, sensible, sure and Vigorous cure for a man.

Free Electric Suspensory for Weak Men

The Electric Suspensory Carries the Current Direct to the Weak Parts and Cures All Weakness of Men—Varicocele, etc. It is Free. It Develops and Expands All Weak Organs and Checks Unnatural Drains. No Case of Failing Vitality, Varicocele or Nervous Debility Can Resist the Powerful Electric Suspensory. It Never Fails to Cure. It is Free With Belts for Weak Men.

No man should be weak, no man should suffer the loss of that vital element which renders life worth living. No man should allow himself to become less a man than nature intended him; no man should suffer for the sins of his youth when there is here at hand a certain cure for his weakness—a check to his waste power. Most of the pains, most of the weakness of stomach, heart, brain and nerves, from which men suffer, are due to an early loss of nature's reserve power through mistakes of youth. You need not suffer for this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives.

Our Electric Belt, with Special Electric Suspensory (free), will restore your power. It will check all unnatural drains and losses and give back the old vigor of youth. E. E. Beebe, Kirkland, Ariz., says: "I suffered for ten years with varicocele, and the attending weakness; doctored with various concerns without relief. As a last resort I tried your Belt, and in six weeks the weakness was entirely cured and the veins reduced to their normal condition. I never expected such results, and will always be grateful."

This letter, from E. J. Wareham, of Bakersfield, Cal., when asked by his friend for advice as to what treatment to use, will surely convince those who are inclined to be doubtful:

"A friend of mine from Los Angeles has just written to me asking whether or not I found your treatment a perfect one, and it was a great pleasure to me to write and tell him that I have. I purchased a belt of you some two years ago to cure a bad case of weakness, complicated with neuralgia and rheumatism, but in two months I was a very different man, completely restored to health. Since then I have not had a relapse of any kind, no trace of the severe pain I formerly suffered has returned, and I have not suffered since. I heartily endorse your treatment to my inquiring friend. I am writing you to let you know that I shall be glad to have you publish this letter, for it may bring to the knowledge of some sufferer the news that there is hope for him, and if at any time I can do anything in the way of recommending your treatment, I certainly shall be pleased to do so."

This drain upon your power causes Kidney Trouble, Rheumatism and Stomach Ailments. You know it's a loss of vital power and affects every organ of the body. Most of the ailments from which men suffer can be traced to it.

We have cured thousands of men who have squandered the savings of years in useless doctoring.

Our Belt is easy to wear; put it on when you go to bed; you feel the glowing heat from it (no sting or burn as in old style belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

C. C. Burt, McKittick, Cal., says: "I can honestly say I have never felt better than since using your

famous Belt. It has done wonders in my case. My back is now strong and every pain is gone. My appetite and digestion are excellent and in the morning I feel refreshed from good sleep, and am able to go about my work in good shape."

A man of 70 says he feels as strong and young as he did at 35. This shows how it renews the vigor of youth. W. G. Beers, Long Beach, Cal., is the man.

It stops losses in ten days. It restores full, vigorous power and development to the shrunken parts.

It cures Rheumatism, Sciatica Pains, Lumbago, Kidney Trouble. It banishes pain in a night, never to return.

W. E. Clark, box 542, Tucson, A. T., says: "I wore the Belt only a few times, when all pain and weakness left my back. I recommended it to a friend up north who had lame back for years, and he received wonderful results."

E. H. Zahner, East Highlands, Cal., writes: "I have got along very well with my belt; as a result my back has not bothered me at all. Heretofore I could not subject my back to any unusual strain, or work for any length of time, without experiencing great pain; but it seems that the influence of the electric current has been most beneficial, limbering the muscles and strengthening them so that I can do any amount of heavy work without the least discomfort. In this regard alone the belt has been a godsend, but it has done me lots of good in improving my general health."

The Electric Suspensory carries the current direct to the weak parts and cures all Weakness of Men, Varicocele, etc. It is free. It develops and expands all weak organs and checks unnatural drains. No case of Failing Vitality, Varicocele or Nervous Debility can resist the powerful Electric Suspensory. It never fails to cure. It is Free with Belts for weak men.

What ails you? Write and tell us, and no matter where you are, we think we can give you the address of some one in your town that we have cured. We've cured thousands, and every man of them is a walking advertisement for our Belt.

Every man who ever used it recommends it because it is honest. It does great work, and those whom we have cured are the most grateful because the cure costs so little.

Try our Belt. Write us today for our beautifully illustrated book, with cuts showing how our Belt is applied, and lots of good reading for men who want to be "The Noblest Work of God," A MAN. Inclose this coupon and we will send the book, sealed, free.
